

AVENIR TECHNOLOGIES
PRIVATE LIMITED

A glowing orange fingerprint is centered on the left side of the image. The background is dark and textured, resembling a fingerprint or a microscopic view of a surface. The fingerprint itself is bright orange and stands out prominently.

ABOUT AVENIR

We exist to redefine the way technology is used, create solution-centric services and make businesses efficient, productive and profitable. The focus at avenir always remains on the bottom-line; you.

Avenir Technologies is for all those who settle for nothing but the best. If you're part of a business looking for an edge, we have just the right solution for you. Avenir Technologies helps you harness the technology wave and use it to your maximum benefit instead of letting it isolate you. We are the means to the end you want to achieve (read optimal performance, maximum profitability).

Want the specifics? Avenir Technologies gives you business solutions using technology – the ultimate tool. We promise high ROI, Fast turnaround time and quality while keeping it all simple and user-friendly! Surprised? There's more. We believe giving you the best solutions is not the end. We, at Avenir Technologies, ensure your satisfaction by listening to your needs, valuing your ideas and realizing them the way you would have; we see your world through your eyes.

With Avenir Technologies, you can afford the luxury of concentrating on decisions that matter because you know the rest is in reliable hands.

IS TECHNOLOGY THE SOLUTION?

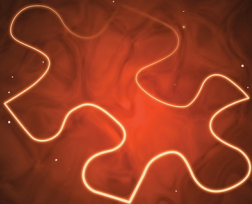

Think you don't need IT? Think again. Do you think using technology takes away your control? Do you think the costs of implementing technology outweigh the benefits? Do you think IT may complicate your problems instead of simplifying them? What happens if you don't switch? Do you think being happy with who you are going to get you anywhere?

If any of these thoughts have occurred to you while deliberating technology as an option, read on!

Technology is the means we provide to you to achieve the ends you desire (read profitability). In today's competitive world, technology is your only key to stand apart from competition and move across competitive currents strongly, surely.

As opposed to taking away your control, it works quite the opposite way by enabling you to work and control smartly. Where earlier you had tedious workload, with Avenir you'll have the time to work on decisions that matter.

The benefits technology reaps for your organization far outweighs the costs you will need to incur for its implementation. Moreover, stagnancy kills your business. Can you think of a great business that has gone down because it wasn't smart enough to change? We're sure you're much farsighted than they were and will make the smart choice of harnessing the technology wave instead of letting it make your processes obsolete.

AVENIR SERVICES

SOFTWARE SOLUTIONS

Need the perfect match to run your hardware? We've got it here at avenir where the software that you get is a far run from the typical off-the-shelf solution. The soul of our work lies in modularity and being able to enhance your productivity through solutions that fit your systems and culture like a glove.

Our software solutions range from business productivity solutions (like issues in routine performance departments like HR, Accounts etc.) to business automation softwares to ERP solutions that integrate the entire functionality of your systems in one parent software.

E-COMMERCE SOLUTIONS

The concept of trade went online with the birth of ecommerce, and our solutions at Avenir make sure you feel just as home with this revolutionary concept as you did with trading in person. Just subtract the hassle and costs of personal trading from the equation and multiply the productivity!

The E-Commerce Solutions range from site building, incorporation of ecommerce solutions, lead generation, building web stores and shopping carts, allowing for process accounting, up selling and cross-selling across various mediums to support and maintenance functions. E-Commerce solutions at Avenir enhance your trade and retail growth cycles by building up your customer base, bringing in more retailers online and multiplying your profits.

BUSINESS PROCESS OUTSOURCING

The benefits of BPO solutions can not be emphasized less, for its impact on the overall IT structure of a company is extremely positive; reduced software complexity and update costs, reduced infrastructure costs, scalability and portability of IT services.

The BPO resources at avenir include; Programming & Maintenance Services, Content Management Services, Graphic Design & Multimedia, Project Implementation, Package Implementation, System Integration, IT-led Business Strategy
